Why colostrum?

Colostrum is absolutely essential for the newborn lamb or kid. As a rule a lamb or goat kid requires the equivalent of in total 150 - 200 ml of colostrum per kilogram of body weight, divided over 3 portions, within the first 24 hours after birth. From the 2nd day onwards a Denkamilk milk replacer is given.

High safety

In order to optimally enhance natural health and achieve a balanced growth, our health concept is utilized in all

Denkamilk products, including:

- Superior quality raw materials
- Prebiotics
- Acidification
- Essential oils
- Accurate supply of vitamins, minerals and trace elements

Easy application

For a correct application of Denkamilk products feeding tables are available on request. Contact your local supplier for more information.
